**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)  
TELNP120USA

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number US 5,931,873, granted \_\_\_\_\_, and for which a reissue patent is sought on the invention entitled PROGRAMMABLE MOBILE DEVICE WITH THUMB WHEEL

the specification of which

☒ is attached hereto.

☐ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_ / \_\_\_\_\_  
and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

One of the reasons upon which reissue is based is due to the patentee failing to claim subject matter relating to a bar code reader and the functioning of the bar code reader. This failure caused the patentee to claim less than he had the right to claim in the patent. This subject matter is shown in Figure 1 and is discussed in the patent at column 4, lines 42-48.

Another of the reasons upon which reissue is based is due to the patentee failing to claim subject matter relating to a PCMCIA card slot and a PCMCIA card. This failure caused the patentee to claim less than he had the right to claim in the patent. This subject matter is discussed in the patent at column 4, lines 50-64.
